

WORLD NAVTEX DATABASE FOR DXERS

(SORTED BY FREQUENCY ORDER)

Version 7.3

Last updated 13th of January 2010

Compiled by Alan Gale, G4TMV

This Database is divided into seven separate sections.

Section One:	Active NAVTEX Stations on 424 kHz
Section Two:	Active NAVTEX Stations on 490 kHz
Section Three:	Active NAVTEX Stations on 518 kHz
Section Four:	Active NAVTEX Stations on 4209.5 kHz
Section Five:	Planned, Proposed, Inactive or Unallocated Stations
Section Six:	Key to Abbreviations used
Section Seven:	Credits & Sources

NOTE #1: The Country Identifiers used in this list are taken from the NDB List Country Code List (available from the Beaconworld website: <http://www.beaconworld.org.uk/download.htm>)

NOTE #2: This list is aimed only at radio enthusiasts, and it goes without saying that it should not be used for navigational purposes, since the data can't be confirmed as being 100% accurate and up to date. Any updates and corrections would be much appreciated!

NOTE #3: More info can be found at the Beaconworld NAVTEX section: <http://www.beaconworld.org.uk/navtex.htm>

Updates/corrections for this list can be sent to: [webmaster at beaconworld.org.uk](mailto:webmaster@beaconworld.org.uk)

note It is expected that a full NAVTEX service will be provided in Peru again in 2011, there will be some occasional trials from Paita [S]

* n/a Navarea not yet assigned (usually polar region), Svalbard, Murmansk and Arkhangelsk are subsumed into Navarea I.

NOTE# There are currently plans to create a number of new Navareas in the Arctic Regions, which are currently outside of the WWNWS, these will likely be numbered as Navareas XVII to XXI, with a possible new area covering Caspian Sea region, with the number XXII. At the moment it looks like the starting date for these new areas will be 1st of January 2010.
